

# An overview: how the concept of Smart Villages is programmed in the CAP Strategic Plans

*The Preparatory Action on Smart Rural Areas of the 21th Century (AGRI-2020-332) is supported by the*

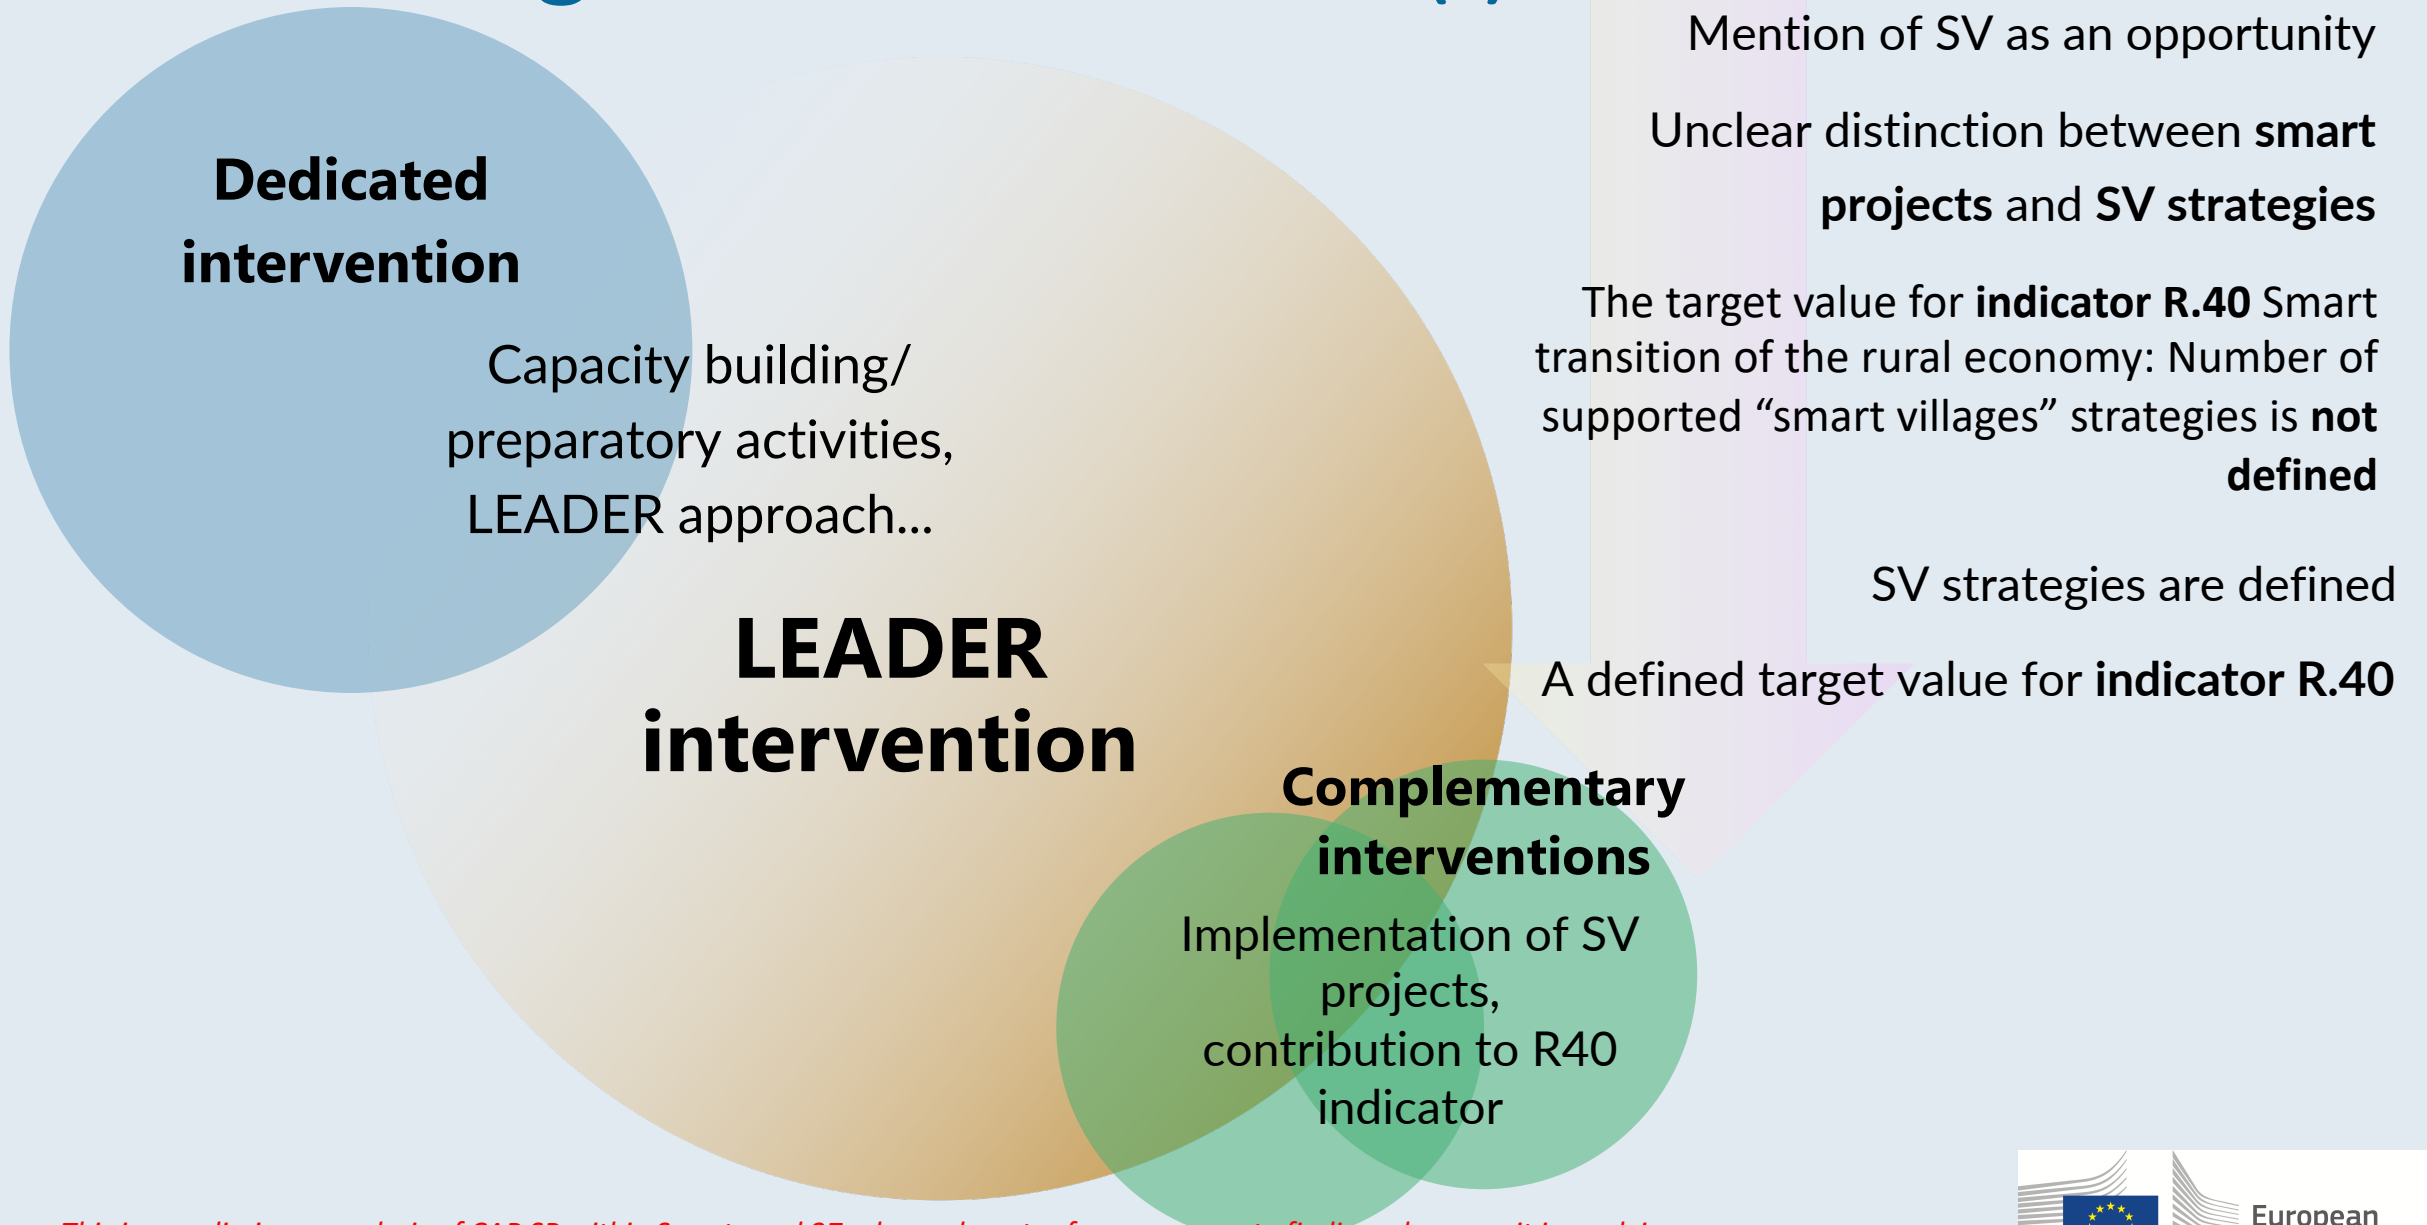

# Identified ways of programming Smart Villages (SV) in the CAP SP

1. No mention or vague mention of SV, e.g. Netherlands...
2. A dedicated intervention for SV, e.g. Lithuania, Hungary, Italy..
3. SV clearly programmed under LEADER complemented by other interventions, e.g. Austria and Poland
4. SV programmed under LEADER with open perspective, e.g. Latvia, Romania, Cyprus...

# Smart Villages under LEADER (I)

*This is a preliminary analysis of CAP SP within Smart rural 27, please do not reference or quote findings, because it is work in progress*

# Smart Villages under LEADER (II)

Support for emergence of Smart Villages and for implementation of Smart Villages actions

- Umbrella type projects lead by LAGs
  - *capacity building, preparation activities...*
- LAG support to villages in SV strategy elaboration
- Transnational and cooperation projects
- Targeted support for smart projects / Smart Village initiatives / smart actions
  - *project selection criterias, support intensity...*

# Diferent understanding of SV strategies

Smart Village strategies (HU,..)

Smart Rural Strategies (LT)

Smart Village concepts (PL)

Smart Village initiatives (LV)

Development cooperation projects with preparatory actions  
(FIN)

Integrated development concept (AT)

R40 indicator – counting projects  
or strategies?
