

Hungarian Smart Rural 27 Taskforce

Miklos Maacz
(Ministry of Agriculture)

Final Conference, 19 March 2024

Purpose of taskforce

To improve the CAP Strategic Plan implementation with focus on:

- Discussions on the SV intervention and criteria
- Raise awareness and build capacity among relevant stakeholders, especially LAGs on how to integrate SV in their strategies and how to support the implementation (based on SR27 experience)

Activities

- Preliminary planning discussions between SR27 Team and MA (until Jun 23)
- LEADER capacity-building action with the aim to raise awareness -> make LAGs include SV in their LDSs (Jul 23)
- Follow-up discussions with MA & other stakeholders on possible joint meeting (Nov - Jan 23) – that finally did not take place

Some lessons

- Hungarian MA has participated in many Smart Rural 21 & 27 activities
- There is a dedicated cooperation intervention on Smart Villages in Hungary
- There is good interest from LEADER LAGs
- There are still uncertainties on how the intervention will be implemented (e.g. how far digitalisation will be a requirement)

... Come our poster and we are happy to share our experience to date!
