

POLAND TASKFORCE

By Andrzej Hałasiewicz

More information:

THE PURPOSE

- Help in using the opportunities created by KPS.
- Exploring the possibilities and expanding the scope of financing the Smart Villages concept from various European funds and national sources.
- Initiating technical assistance for interested parties

MEMBERS

There is a strong representation from the Ministry of Agriculture and Rural Development among the members. Other members include representatives from the Agency for the Restructuring and Modernisation of Agriculture, the National Rural Network, regional and municipal governments, LAGs, the Ministry of Funds and Regional Policy. Staff of the Institute of Rural and Agricultural Development and from the Polish Academy of Sciences.

OUTCOMES

The principles and criteria

for the selection of Smart Village projects in the operation proposed for intervention 10.10 Infrastructure in rural areas and implementation of the smart village concept - Investments in individual wastewater treatment systems, Strategic Plan for the CAP 2023-2027.

A handbook

for LAGs, the provincial government and all those interested in the implementation of the smart village concept.

MAIN CHALLENGE

Increase interest in the Smart Rural concept among provincial governments and institutions managing other development funds and programmes.

IMPACT & SUSTAINABILITY

The first achievement giving sustainability is the presence of Smart Villages in the CAP National Strategic Plan. The Taskforce EN of the Smart Rural 27 project is developing into a working group of the Monitoring Committee of the Strategic Plan for the Common Agricultural Policy 2023-2027 for the implementation of the smart rural concept.
