

## 4th Smart Villages Taskforce Meeting – [Finland]

### **Purpose of the meeting**

CAP-analysis report, short questionnaire on villages, partnerships for Taskforce members, planning next steps.

### **Date of the meeting**

[8+11/09/2023]

### **Location**

On-line, Zoom

### **Participation**

The 4th meeting was held in two rounds 8/9 and 11/9 to get better representation. Eight members of the Taskforce were present and Maarit Teuri (Vice-president of the Finnish Village Movement) was invited.

### **Main outcomes & lessons learnt (including deviations from initial plan)**

The Task Force was given a presentation on the CAP-analysis including elements from the green Deal. Most of the Taskforce members were quite aware already on Smart village elements in the Finnish CAP-plan. A short questionnaire was made to the Taskforce members in order to prepare a broader survey among Village NGO's and LEADER groups. The survey questions will be prepared in cooperation with the Finnish Rural network.

The target groups will be asked to provide policy and programming solutions for Smart villages, discussed later on in the Final event in March 2024.

## Next steps

Planning and sending the questionnaire to LAG's and Villages  
Participating in the Final event 11.03.2024
